

Business Bill Payment System Requirements

To have a successful user experience the following operating systems and web browsers are recommended and supported for using Business Bill Payment within **Exchange**.

Operating Systems	Notes
Windows, Mac OS, iOS – iPhone and iPad, Android or Chrome OS	Manufacturer supported operating systems only

PC	MAC	Supported Browsers	Notes
X	X	Google Chrome	Current and previous major releases. Chrome should automatically update, and major updates are released approximately every 12 weeks. If Chrome is two versions older than the current stable channel version, Business Bill Payment applications may not be accessible
X	X	Microsoft® Edge	Current and previous major releases. Microsoft Edge will be supported at the latest version only. Business Bill Payment applications may not be accessible on older Microsoft Edge versions, 60 days after a new version is released.
X	X	Firefox®	Current and previous major releases. Firefox should automatically update, and major updates are released approximately every 12 weeks. If Firefox is two versions older than the current stable channel version, Business Bill Payment applications may not be accessible.
	X	Safari®	Current and previous major releases. Safari currently only sees major upgrades during the Fall. Business Bill Payment applications may not be accessible on older Safari versions, 60 days after a new version is released.

Smart Devices	Notes
Bill Pay Browser Settings for Apple	Business Bill Payment supports iOS versions 13 and above. If you experience issues using bill pay on iOS 12, update to iOS 13, if the device is compatible.
Bill Pay Browser Settings for Android	Chrome 87 and 88
